

With HP, virtualization is better than ever before. We can help you jump-start your project with simplified virtualization solutions that are predefined and validated, yet flexible enough for you to choose a solution that meets your application availability and capacity needs.

You can benefit from the HP advantage in the following areas:

- Unique capabilities: Reduce costs and keep applications and storage online, even during site failures.
- One contact for support: HP sells and supports all the hardware and software products, so your authorized HP reseller can deploy and support the entire solution.
- Deploy with confidence: Get the benefit of our carefully crafted and validated configurations so that your solution performs as expected.

When business results count, count on HP.
