Dear **Customer Name**,

Are you building or expanding your virtual environment? Although virtualization can cut costs and simplify your IT management, we know that getting started can be challenging. You'll not only need the right software, network, server, and storage configurations, but you also have to determine how to put them all together.

That's why we've done all the thinking for you. Meet the HP Virtualization Smart Bundles with Hyper-V—simplified end-to-end virtualization solutions. They're predefined and validated, yet flexible enough for you to choose a solution meeting your application availability and capacity needs.

You can benefit from the HP advantage in the following areas:

- **Unique capabilities:** Reduce costs and keep applications and storage online, even during site failures.
- **One contact for support:** HP sells and supports all the hardware and software products, so your authorized HP reseller can deploy and support the entire solution.
- **Deploy with confidence:** Get the benefit of our carefully crafted and validated configurations so that your solution performs as expected.

**To learn more about how HP Virtualization Smart Bundles with Hyper-V can benefit your business, refer to our data sheet or call your authorized HP reseller at **Company Phone Number**.**

Regards,
