of virtualization.

Introducing HP Virtualization
Smart Bundles with Hyper-V.

Stand-Alone Smart Bundles

Entry Tower

- HP ProLiant ML350 G6 tower server
- (2) Intel® Xeon® quad-core 5600 series processors
 - 12 GB Registered DDR3 RAM
 - HP Smart Array P410i Controller with 256MB BBWC
 - (6) 500GB 3G SATA SFF drives
 - (4) Gigabit server network adapters
 - Redundant power supplies
 - HP Onboard Administrator (iLO-2 Advanced)

Entry Rack

- HP ProLiant DL180 G6 rack server
- (2) Intel® Xeon® quad-core 5600 series processors
 - 16GB Registered DDR3 RAM
 - HP Smart Array P212i Controller with 256MB BBWC
 - (6) 500GB 3G SATA LFF drives
 - (4) Gigabit server network adapters
 - Redundant power supplies
 - HP Onboard Administrator (LO100i Advanced)

High-Availability Smart Bundles

Midrange Rack HA

- (2) HP ProLiant DL380 G7 rack servers, each with:
- (2) Intel® Xeon® quad-core 5600 series processors
 - 12GB Registered DDR3 RAM
 - HP Smart Array P410i/256
 - (2) 146GB 6G SAS SFF drives
 - (4) Gigabit server network adapters
 - Redundant power supplies
 - HP Onboard Administrator (iLO-3 Advanced)

HP StorageWorks MSA2300sa DC SAS SAN Solution

- (12) 300GB 6G SAS SFF drives

Scalable Rack HA

- (2) HP ProLiant DL380 G7 rack servers, each with:
- (2) Intel® Xeon® quad-core 5600 series processors
 - 12GB Registered DDR3 RAM
 - HP Smart Array P410i
 - (2) 146GB 6G SAS SFF drives
 - (8) Gigabit server network adapters
 - Redundant power supplies
 - HP Onboard Administrator (iLO-3 Advanced)
 - HP Insight Control

Scalable Blades HA

- HP c3000 BladeSystem Rack Enclosure
- (2) HP Virtual Connect Flex-10 10GB Ethernet Modules
 - (3) HP ProLiant BL460 G6 blade servers, each with
 - (2) Intel® Xeon® quad-core 5500 series processors
 - 12GB Registered DDR3 RAM
 - HP Smart Array P410i/256
 - (2) 146GB 6G SAS SFF drives
 - (4) Flex-10 10GbE Adapters—up to (16) 1 GB + NICs
 - Fully redundant power
 - HP Onboard Administrator
 - HP Insight Control

Preconfigured and carefully put-together virtualization solutions.

Also smartly priced, HP Virtualization Smart Bundles with Microsoft Hyper-V™ consist of HP servers, storage, networking, and software. These configurations include everything you need to get started with virtualization—from Microsoft Windows® Server 2008 R2 software to next generation HP ProLiant Servers, StorageWorks and HP StorageWorks SAN Solutions, HP Networking switches, and HP Insight Control software.

Outcomes that matter.

Say hello to technology that thinks for you.

HP constantly thinks about your growing business needs. That's why HP has put together the Virtualization Smart Bundles with Microsoft Hyper-V™. These simplified end-to-end virtualization solutions are predefined and validated, yet flexible enough to match your application availability and capacity needs.

You can benefit from the HP advantage in the following areas:

- Unique capabilities: Reduce costs and keep applications and storage online, even during site failures.
- One contact for support: HP sells and supports all the hardware and software products, so your authorized HP reseller can deploy and support the entire solution.
- Deploy with confidence: Get the benefit of our carefully crafted and validated configurations so that your solution performs as expected.

Introducing HP Virtualization Smart Bundles with Hyper-V.

Your company logo here

Make your IT decisions virtually simple.

Virtualization can reduce costs, improve application availability, and simplify IT management. Getting started, however, can be challenging. You need to find the appropriate software, network, server, and storage configurations. Some marketplace solutions billed as “simple” may actually reduce availability and limit scalability—leaving you to figure out how to put it all together.

With HP, virtualization is better than ever before. Jump-start your project with simplified virtualization solutions that are preconfigured, validated, and flexible. So, it's easy for you to choose a solution that meets your application and capacity needs.
